Peeking into....Grade 4

I am happy to welcome everyone back from April vacation. Everyone looks rested and ready to tackle the final 6 weeks of school. In Technology, they are continuing to gather information on their state. They are researching the current governor, largest cities, famous people, fun facts, and so much more. They have learned how to find and save images which they will use for their power point presentations. With the help of Mrs. Beebe, their presentations will be completed in a couple of weeks. In Science, they are learning about mixtures, solutions, and solubility. They are conducting several experiments to further investigate these concepts and are loving the hands on exposure. This will be my final "peeking into fourth grade" and I just want to say thank you for allowing me to spend the year with your children. I have enjoyed watching them grow, learn, and support one another. This has been a fantastic year and I am proud of all of you! *Mrs. Bonefant*
